PROJECTS

StudyHub — ***HTML, CSS, Python***

- StudyHub, a comprehensive web application, revolutionizes student productivity by **30%** integrating YouTube, Wikipedia, a dictionary, books, Todo lists, and notetaking in one platform.
- Developed using **HTML**, **CSS**, **Python**, and **Django**, offering a holistic approach to academic success.

  Source Code-github.com/Naveen-Christopher-Raj/Studyhub

DairyDelight — ***PYTHON, DJANGO, MYSQL***

- DairyDelight, an all-encompassing e-commerce venture, simplifies the shopping experience for dairy enthusiasts.
- Developed using **HTML**, **CSS**, **Python**, and **Django**, DairyDelight provides a seamless platform for one-stop dairy shopping

  Source Code- github.com/Naveen-Christopher-Raj/DairyDelight

foodXpress— ***HTML, CSS, BOOTSTRAP***

- An online food delivery web site developed to showcase my responsive web application development skills with bootstrap 5 and hosted online

  Source Code- github.com/Naveen-Christopher-Raj/DairyDelight

  Live Demo - naveen-christopher-raj.github.io/foodXpress

SKILLS

Python	JavaScript
HTML	CSS
Bootstrap	Django
MySQL	Git & Github
VS code	ChatGPT

Object-oriented programming

Data structures and Algorithms

FIELD OF INTEREST

Web development

Front-end development

Back-end development

Full-stack development

Software development

COURSE WORK

Front End Development - HTML

Front End Development - CSS

Programming with Python 3.X

JavaScript for Beginners

LANGUAGES

Tamil

English
